

Test Case Document - OrangeHRM Application									
Project Name	OrangeHRM Application (https://opensource-demo.orangehrmlive.com/web/index.php/auth/login)								
Module Name	Login and My Information Page								
Created By	Nimesha Kumarapperuma								
Date of Creation	2/10/2024								
Date of Review	-								
Abbreviation	Definition								
LP	Login Page								
MI	My Infomation page								
Test case ID	Test Scenario	Test Case	Pre-Condition	Test Steps	Test Data	Post - Condition	Expected Result	Actual Result	Status
LP_001	Validate Username filed	Verify that user can login to the system with a valid username	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Enter valid username 2. Enter valid password 3. Click on login button	Username:Admin Password: admin123	Redirected to the dashboard page	User should be able to login to system and redirect to the dashboard	User able to login to system and redirect to the dashboard successfully	Pass
LP_002		verify that user can not login to the system by entering username with 20 characters for the username field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Enter a username with 20 characters 2. Enter valid password 3. Click on login button	Username: Abbfbgfggfdgfdgfdggfmdgfff gkikiukukjmhin Password:admin123	Get an error message and remains in the login page	User should be get an error message that contains "Exceeding no.of characters" in username field	User able to get an error message that contains "Invalid Credentials"	Fail
LP_003		Verify that user can not login to the system with entering special characters for the username field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Enter username with special characters 2. Enter valid password 3. Click on login button	Username:Ad@min\$ Password:admin123	Error message and remains in the login page	User should be able to get an error message that contains "Not allowed characters"	User able to get an error message that contains "Invalid Credentials"	Fail
LP_004		Verify that user can not login to the system by entering numeric values for the username field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Enter numerical value for username 2. Enter valid password 3. Click on login button	Username:12437 Password: admin123	Error message and remains in the login page	User should be able to get an error that contains "Numbers are not allowed"	User able to get an error message that contains "Invalid Credentials"	Fail
LP_005		Verify that user can login to the system with entering username in uppcase	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Enter username in uppcase 2.Enter valid password 3. Click on login button	Username:ADMIN Password: admin123	Error message and remains in the login page	User should be able to get an error message that contains "Invalid credentials"	User able to get an error message that contains "Invalid credentials" successfully	Pass
LP_006		Verify that user can not login to the system with entering empty value for the username field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Keep username empty 2. Enter valid password 3. Click on login button	Username: Password:admin123	Error message and remains in the login page	User should be able to get an error message that contains "Username can not be empty"	User able to get an error message that contains "Required" successfully	Pass
LP_007	Validate Password filed	Verify that user can login to the sysstem with entering the valid password for the password field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter valid username 2. Enter valid password 3. Click on login button	Username: Admin Password:admin123	Redirected to the dashboard page	User should be able to login to the system and redirect to the dashboard successfully	User able to login to the system and redirect to the dashboard successfully	Pass
LP_008		Verify that user can not login to the system by entering empty value for the password field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter valid username 2. Keep password field empty 3. Click on login button	Username: Admin Password:	Error message and remains in the login page	User should be get an error message that contains "password can not be empty"	User get an error message that contains "Required" successfully	Pass

LP_009	Verify Login button	Verify that user can get the clickable login button when enter the valid username and password	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter valid username 2. Enter valid password 3. Click on login button	Username: Admin Password:admin123	Redirected to the dashboard page	User should be able to get a clickable login button	User able to get a clickable login button successfully	Pass
LP_010		Verify that user can not get the clickable login button when enter empty values for username and password field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter empty username 2. Enter empty password 3. Click on login button	Username: Password:	Remains in the login page	User should be unable to get a clickable login button	User able to get a clickable login button	Fail
LP_011		Verify that user can not get the clickable login button when enter empty value for username field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter empty username 2. Enter empty password 3. Click on login button	Username: Password:admin123	Remains in the login page	User should be unable to get a clickable login button	User able to get a clickable login button	Fail
LP_012		Verify that user can not get the clickable login button when enter empty value for password field	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter valid username 2. Enter valid password 3. Click on login button	Username: Admin Password:	Remains in the login page	User should be unable to get a clickable login button	User able to get a clickable login button	Fail
LP_013		Verify that user can not get the clickable login button by enter invalid username and valid password	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter invalid username 2. Enter valid password 3. Click on login button	Username: \$Admin Password:admin123	Remains in the login page	User should be able to get a clickable login button	User able to get a clickable login button	Pass
LP_014		Verify that user can login to the system by enter the valid username and password and pressing enter button in keyboard	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username and password	1. Enter valid username 2. Enter valid password 3. Press enter	Username: Admin Password:admin123	Redirect to the login page	User should be able to press enter and login to the system successfully	User able to press enter and login to the system successfully	Pass
LP_015	Verify forgot password Link	Verify that user redirect to the reset password page when click on forgot page	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Click on forgot page	-	Redirect to the reset password page	User should be able to redirect to the reset password page	User able to redirect to the reset password page successfully	Pass
LP_016		Verify that user can redirect to the login page when click on cancel button	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Click on forgot page 2. Give a valid username 3. Click on cancel button	Username: Admin	Redirect to the login page	User should be able to redirect to the login page	User able to redirect to the login page successfully	Pass
LP_017		Verify that user can not give empty username reset the password	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Click on forgot page 2. Give empty username 3. Click on reset button	Username:	Remain in the reset password page	User should be able to get an error message that contains "username can not be empty"	User able to get an error message that contains "Required" successfully	Pass
LP_018		Verify that user can reset the password with entering valid username	Go to the https://opensource-demo.orangehrmlive.com/web/index.php/auth/login link Having pre-registered username	1. Click on forgot page 2. Give a valid username 3. Click on reset button	Username: Admin	Get a link to reset the password	User should be able to get a message that contains "Reset password link sent to the email"	User able to redirect to a page that contains "Reset password link sent to the email" successfully	Pass
MI_01		Verify that user can go to the My Info by click on My Info in Navigation bar	LP_001	1. Click on the My Info Keyword in Navigation bar	-	Redirect to the My Info page	User should be able to go to the My Info page	User able to go to the My Info page successfully	Pass
MI_02		Verify that user can go to the Personal Details page	MI_01	1. Click on the Personal Details Keyword in Navigation bar	-	Redirect to the personal details page	User should be able to go to the Personal Details page	User able to go to the Personal Details page successfully	Pass
MI_03		Verify that user can go to the Contact Details page	MI_01	1. Click on the Contact Details Keyword in Navigation bar	-	Redirect to the contacts page	User should be able to go to the Contact page	User able to go to the Contact page successfully	Pass
MI_04		Verify that user can go to the Emergency Contacts page	MI_01	1. Click on the Emergency Contacts Keyword in Navigation bar	-	Redirect to the emergency contacts page	User should be able to go to the Emergency Contacts page	User able to go to the Emergency Contacts page successfully	Pass
MI_05		Verify that user can go to the Dependents page	MI_01	1. Click on the Dependents Keyword in Navigation bar	-	Redirect to the dependency page	User should be able to go to the Dependents page	User able to go to the Dependents page successfully	Pass

MI_06	Validate My Info Page	Verify that user can go to the Immigration page	MI_01	1. Click on the Immigration Keyword in Navigation bar	-	Redirect to the immigration page	User should be able to go to the Immigration page	User able to go to the Immigration page successfully	Pass
MI_07		Verify that user can go to the Job page	MI_01	1. Click on the Job Keyword in Navigation bar	-	Redirect to the job page	User should be able to go to the Job page	User able to go to the Job page successfully	Pass
MI_08		Verify that user can go to the Salary page	MI_01	1. Click on the Salary Keyword in Navigation bar	-	Redirect to the salary page	User should be able to go to the Salary page	User able to go to the Salary page successfully	Pass
MI_09		Verify that user can go to the Report-to page	MI_01	1. Click on the Report-to Keyword in Navigation bar	-	Redirect to the report-to page	User should be able to go to the Report-to page	User able to go to the Report-to page successfully	Pass
MI_10		Verify that user can go to the Qualifications page	MI_01	1. Click on the Qualifications Keyword in Navigation bar	-	Redirect to the qualifications page	User should be able to go to the Qualifications page	User able to go to the Qualifications page successfully	Pass
MI_11		Verify that user can go to the Memberships page	MI_01	1. Click on the Memberships Keyword in Navigation bar	-	Redirect to the membership page	User should be able to go to the Memberships page	User able to go to the Memberships page successfully	Pass
MI_12	Validate personal details page	Verify that user can enter valid name for employee full name	MI_02	1. Fill the employee full name field 2. Fill the employee ID and other details under personal details 3. Click on save button	First name: Nimesha Middle name: madhushani Last Name:perera	Employee details saved and show the success message	User should be able to save the employee details successfully	User able to save the employee details successfully	Pass
MI_13		Verify that user can not give numeric values for employee full name field	MI_02	1.Fill the employee full name with numerical value 2. Fill the employee ID and other details under personal details 3. Click on save button	First name: 123243545 Middle name: madhushani Last Name:perera	Employee details saved and show the success message	User should be able to get an error message that contains "First name can not be numerical value"	User able to save the employee details	Fail
MI_14		Verify that first and last name in employee name fields are mandatory	MI_02	1.Keep the employee full name field empty 2. Fill the employee ID and other details under personal details 3. Click on save button	First name: Middle name: Last Name:	User get an error message and remains in the employee details page	User should be able to get an error message that contains "Employee name can not be numerical value"	User able to get an error message that contains "Required" successfully	Pass
MI_15		Verify that middle name is not mandatory	MI_02	1.Fill the employee full name field 2. Fill the employee ID and other details under personal details 3. Click on save button	First name: Nimesha Middle name: Last Name:perera	Employee details saved and show the success message	User should be able to save the employee details successfully	User able to save the employee details successfully	Pass
MI_16		Verify that user can add personal details by filling all the fields	MI_02	1. Fill all the details under personal details 2. Click on save button	First name: Anne Middle name: madhushani Last Name:perera employeeid:45645 otherid:234355 Driver's License Number: 12382346873256 License Expiry Date: 10/20/2025 nationality:british Status:Single Date of Birth:1999/10/02 Gender:Female	Employee details saved and show the success message	User should be able to save the employee details successfully	User able to save the employee details successfully	Pass
MI_17		Verify that user can add custom fields by filling all the fields	MI_02	1.Fill all the details under custom fields details 2.Click on save button	Blood type: A+ Test_Field:2345	Custom details saved and show the success message	User should be able to save the custom details	User to save the custom details successfully	Pass
MI_18		Verify that user can add text file less than 1MB	MI_02	1. Click on browse 2. Upload the file 3. Click on save button	.txt	File uploaded successfully and remain in the personal details page	User should be able to upload the document successfully	User able to upload the document successfully	Pass
MI_19		Verify that user can not add .pdf file size exceeds 1MB	MI_02	1. Click on browse 2. Upload the file 3. Click on save button	Upload .pdf file sized more than 2MB	Show error message and remains in the personal details page	User should be able to get an error message that contains "File size is exceeding"	User should be able to get an error message that contains "File size is exceeding" successfully	Pass

MI_20	Validate contact details page	Verify that user can add contact details by entering valid values for all the fields	MI_03	1. Fill all the fields under contact details 2. Click on save	Street 1:galle road Street 2:colombo road City:Matara State/Province:southern Zip/Postal Code:8000 Country:china Telephone Home:0998978654 Mobile:099897865 Work:0998787865 Work Email:ndhjh@ghdjd.com Other Email:jdhbfjh@bdjasd.com	Contact details saved and show the success message	User should be able to add contact details Successfully	User able to add contact details Successfully	Pass
MI_21		Verify that user can not enter numeric value for city field	MI_03	1. Fill city fields with numeric value 2. Fill other fields under the contact details 3. Click on save	Street 1:galle road Street 2:colombo road City:24235 State/Province:southern Zip/Postal Code:8000 Country:china Telephone Home:0998978654 Mobile:099897865 Work:0998787865 Work Email:ndhjh@ghdjd.com Other Email:jdhbfjh@bdjasd.com	Show error message and remain in the contact details page	User should be able to get an error message that contains "Invalid Character"	User able to add contact details	Fail
MI_22		Verify that user can not enter invalid telephone number	MI_03	1. Fill telephone number field with invalid value 2. Fill all the fields under contact details 3. Click on save	Street 1:galle road Street 2:colombo road City:24235 State/Province:southern Zip/Postal Code:8000 Country:china Telephone Home:099897865 Mobile:099897865 Work:0998787865 Work Email:ndhjh@ghdjd.com Other Email:jdhbfjh@bdjasd.com	Contact details saved and show the success message	User should be able to get an error message that contains "Invalid Telephone Number"	User able to add contact details	Fail
MI_23		Verify that user can not enter invalid email address	MI_03	1. Fill email field with invalid value 2. Fill all the fields under contact details 3. Click on save	Street 1:galle road Street 2:colombo road City:24235 State/Province:southern Zip/Postal Code:8000 Country:china Telephone Home:099897865 Mobile:099897865 Work:0998787865 Work Email:ndhjh@ghdjd.com Other Email:jdhbfjh@	Show error message and remain in the contact details page	User should be able to get an error message that contains "Invalid Email"	User should be able to get an error message that contains "Expected format: admin@example.com" successfully	Pass
MI_24		Verify that user can not add .pdf file exceeds 1MB	MI_03	1. Click on browse 2. Upload the file 3. Click on save button	Upload 2MB sized file	Show error message and remain in the contact details page	User should be able to get an error message that contains "File size is exceeding"	User should be able to get an error message that contains "File size is exceeding" successfully	Pass
MI_25		Verify that user can not enter empty values for all the fields under contact details	MI_03	1. Keep all the fields under contact details 2. Click on save	-	Contact details saved and show the success message	User should be able to add contact details Successfully	User able to add contact details Successfully	Pass
MI_26	Validate emergency contacts page	Verify that user can add emergency contact by filling all the required Fields	MI_04	1. Fill all the required fields 2. Click on save button	Name:nimesha relationship: mother Home telephone: 0422234567	Emergency details saved successfully with success message	User should be able to add the emergency contact successfully	User able to add the emergency contact successfully	Pass
MI_27		Verify that user can not add empty values for all fields	MI_04	1. Keep all the fields under emergency contact details empty 2. Click on save	-	Show error message and remain in the emergency contact page	User should be able to get an error message that contains "Required fields can not be empty"	User able to get an error message that contains "Required" successfully	Pass
MI_28		Verify that user can not upload .pdf files exceed 1MB	MI_04	1. Click on browse 2. Upload the file 3. Click on save button	Upload a 2MB size of .pdf file	File uploaded and show the added the file	User should be able to get an error message that contains "File size is exceeding"	User able to get an error message that contains "File size is exceeding" successfully	Pass
MI_29		Verify that user can add dependents details by filling all the required fields	MI_05	1. Fill all the required fields 2. Click on save button	Name:nimesha relationship: mother	Dependent details saved and get a success message	User should be able to add the dependant details successfully	User able to add the dependant details successfully	Pass

MI_30	Validate dependents page	Verify that user can not give empty values for all fields under dependents details	MI_05	1. Keep all the fields under add dependant details empty 2. Click on save	-	Show error message and remain in the dependent detail page	User should be get an error message that contains that "Required fields can not be empty"	User get an error message that contains that "Required" successfully	Pass
MI_31		Verify that user can not add .pdf file exceeds 1MB	MI_05	1. Click on browse 2. Upload the file 3. Click on save button	Upload 2 MB sized .pdf file	Show error message and remain in the dependent detail page	User should be able to get an error message that contains "File size is exceeding"	User able to get an error message that contains "File size is exceeding" successfully	Pass
MI_32	Validate imigrations page	Verify that user can add imigration details by filling all the required fields	MI_06	1. Fill all the required fields 2. Click on save button	Number:826348767	Immigration details saved and get success message	User should be able to add the immigration details	User able to add the immigration details successfully	Pass
MI_33		Verify that user can not add empty values to all the fields	MI_06	1. Keep all the fields under add immigration empty 2. Click on save	-	Show error message and remain in the immigration page	User should be able to get an error message that contains " Required fields can not be empty"	User able to get an error message that contains " Required" successfully	Pass
MI_34		Verify that user can add .pdf files exceed 1MB	MI_06	1. Click on browse 2. Upload the file 3. Click on save button	Upload the 2MB sized file	Show error message and remain in the immigration page	User should be able to get an error message that contains "File size is exceeding"	User get an error message that contains "File size is exceeding" successfully	Pass
MI_35	Validate Qualifications page	Verify that user can add work experience with filling all the details	MI_10	1. Fill all the fields under work experience 2. Click on save button	Company:wireapps Job Title:tester From :2024/2/2 To:2023/2/9 Comment:better place to work	Save work experience and success message	User should be able to add the work experience	User able to add the work experience successfully	Pass
MI_36		Verify that user can not add work experience without filling company name	MI_10	1. Keep the company name field empty 2. Fill the other details under work experience 3. Click on save button	Company: Job Title:tester From :2024/2/2 To:2023/2/9 Comment:better place to work	Error message and remain in the qualifications page	User should be able to get an error message that contains "Required fields can not be empty"	User able to get an error message that contains "Requirede" successfully	Pass
MI_37		Verify that user can not add work experience without filling job title	MI_10	1. Keep the job title field empty 2. Fill the other details under work experience 3. Click on save button	Company:wireapps Job Title: From :2024/2/2 To:2023/2/9 Comment:better place to work	Error message and remain in the qualifications page	User should be able to get an error message that contains "Required fields can not be empty"	User able to get an error message that contains "Required" successfully	Pass
MI_38		Verify that user can not add skill with giving empty value for skill	MI_10	1. Keep the skill field empty 2. Fill the other details under skill 3. Click on save button	Skill: Years of Experience:1 Comments: jhbfmsfsaf	Error message and remain in the qualifications page	User should be able to get an error message that contains "Required fields can not be empty"	User able to get an error message that contains "Required" successfully	Pass
MI_39		Verify that user can add skill with filling all the details	MI_10	1. Fill all the fields under skill 2. Fill the other details under skill 3. Click on save button	Skill:Copywrighting Years of Experience:1 Comments: jhbfmsfsaf	Save skill and success message	User should be able to add the skill	User able to add the skill successfully	Pass
MI_40		Verify that user can not add language without filling required fields	MI_10	1. Keep all the fields under language empty 2. Click on save button	Language: Fluency: Good Competency:poor Comments: i am good at english	Error message and remain in the qualifications page	User should be able to get an error message that contains "Required fields can not be empty"	User able to get an error message that contains "Required" successfully	Pass
MI_41		Verify that user can add language with filling all the fields	MI_10	1. Fill all the fields under add language 2. Click on save button	Language: English Fluency: Good Competency:poor Comments i am good at english	Save language and success message	User should be able to add the language	User able to add the language successfully	Pass
MI_42		Verify that user can add license with filling all the required fields	MI_10	1. Fill all the fields under add license 2. Click on save button	License Type: Certified Information Security Manager (CISM) License Number:84783576 Issued Date:2024//7 Expiry Date:2023/9/8	Save language and success message	User should be able to add the license	User able to add the license successfully	Pass
MI_43		Verify that user can not add license without filling all the required fields	MI_10	1. Keep all the fields under add license empty 2. Click on save button	License Type: License Number:84783576 Issued Date:2024//7 Expiry Date:2023/9/9	Error message and remain in the qualifications page	User should be able to get an error message that contains "Required fields can not be empty"	User able to get an error message that contains "Required" successfully	Pass

MI_44		Verify that user can not add .pdf file exceeds 1MB	MI_10	1. Keep all the fields empty under add attachment 2. Click on save button	Upload the file sized 2 MB	Error message and remain in the qualifications page	User should be able to get an error message that contains "File size is exceeding"	User get an error message that contains "File size is exceeding" successfully	Pass
MI_45		Verify that user can add .pdf files less than 1 MB	MI_10	1. Click on browse 2. Upload the file 3. Click on save button	Upload the file sized less than 1MB	Upload the file and show the uploaded file with success message	User should be able to upload the document	User able to upload the document successfully	Pass
MI_46	Validate memberships page	Verify that user can add membership with filling all the required details	MI_11	1. Fill all the fields under add membership 2. Click on save button	Membership:CIMA	Membership details save and success message	User should be able to add membership details	User able to add membership detail successfully	Pass
MI_47		Verify that user can not add membership details without filling all the fields	MI_11	1. Keep all the fields empty under add membership 2. Click on save button	-	Show error and remain in the membership page	User should be get an error message that contains "Required fields can not be empty"	User get an error message that contains "Required" successfully	Pass
MI_48		Verify that user can not add .pdf files exceeds 1MB	MI_11	1. Click on browse 2. Upload the file 3. Click on save button	Upload 2MB sized .pdf file	Show error and remain in the membership page	User should be able to get an error message that contains "File size is exceeding"	User should be able to get an error message that contains "File size is exceeding" successfully	Pass
MI_49		Verify that user can add .pdf files less than 1MB	MI_11	1. Keep all the fields empty under add attachment 2. Click on save button	Upload 1MB sized .pdf file	Uploaded the file and show the uploaded file	User should be able to add the .pdf file	User able to add the .pdf file successfully	Pass
